

Google Maps Street View Instructions

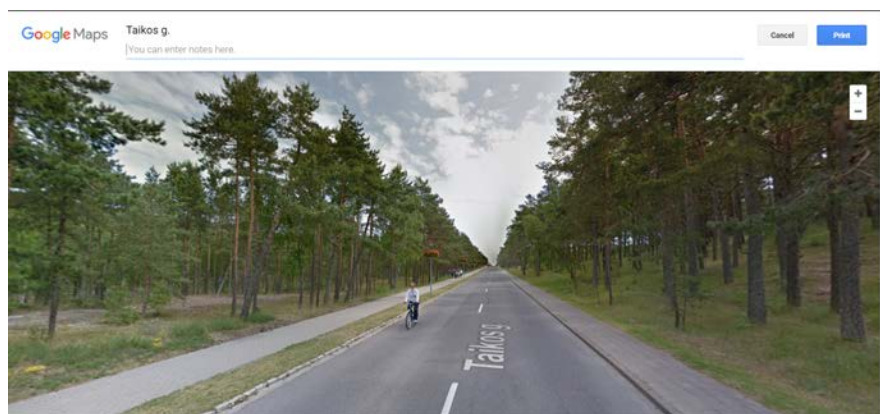

1. Browse the Street View images:
Click on the yellow figure at the bottom right of the display.

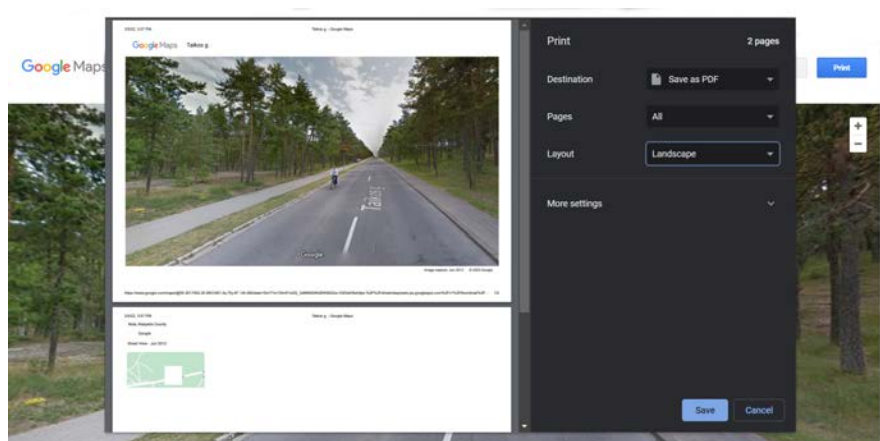

2. Drag the yellow figure into the street you would like to view.
(It is only possible to view the streets which are marked in blue.)

3. Once you can see the street view, click on the three dots next to the location name, and then click "Print".

4. Click "Print".

5. Choose the destination as "Save as PDF" and change the layout to "Landscape", and then click "Save".
